

Oregon Master Gardener™ Association

This handbook provides information intended for use by individual members of the OMGA Board of Directors specifically including all State Representatives and members of the OMGA Executive Committee. It may be used as an orientation tool. It also provides a convenient way to file away important information for future reference.

The handbook contains a current roster of OMGA and chapter officers, the OMGA Bylaws, the OMGA Policies, the current budget, recent meeting agendas and minutes as well as a job description.

Each board member should keep his or her handbook up to date and pass it on to a successor when they finish their term of office.
